

# HAND SANITIZER WARNING

WARNING: Dangerous hand sanitizer products!

**Some hand sanitizers have been found to contain methanol (wood alcohol). Methanol can cause serious health problems such as blindness, and even death.**

## CHECK YOUR HAND SANITIZER

**If the manufacturer's name is on this list, stop using it immediately**

For the latest information, check the FDA's [Methanol Contaminated Products List](#)

## More Hand Sanitizer Safety Tips:

- Avoid products that say "FDA-approved" on the label – there are no hand sanitizers approved by the FDA.
- Seek immediate medical attention if you have swallowed hand sanitizer or are experiencing symptoms after repeated use of these products on your skin and contact your poison center (1-800-222-1222) for advice.
- Signs and symptoms of methanol poisoning include headache, blurred vision or blindness, nausea, vomiting, abdominal pain, loss of coordination, and decreased alertness.
- Keep hand sanitizers out of the reach of children and supervise their use.
