# GUIDE TO REBUILDING WITH SCE

SCE is here to help as you rebuild after a natural disaster. This guide outlines the steps and available support to help you navigate the rebuilding process.

**[sce.com/disasterrecovery](https://sce.com/disasterrecovery)**

Get information about  
programs and rebates.

3/20/2025

1. Apply for  
**Temporary Electric Service**

2. Rebuild and prepare for  
**Permanent Electric Service**

3. Apply for  
**Permanent Electric Service**

## 1. Apply for **Temporary Electric Service**

You may need temporary electric service to start rebuilding.

Call SCE's customer support team at **1-800-250-7339** to begin the process.

### REQUIREMENTS CHECKLIST

- Obtain the necessary permits from your local jurisdiction (city or county) building department before contacting us.
- Complete a temporary power application at [sce.com/temporarieservice](https://sce.com/temporarieservice).
- Work with your contractor to install a temporary electric pole for overhead service or pedestal for underground service. Get the technical requirements at [sce.com/esr](https://sce.com/esr).
- Schedule an inspection of the electrical panel with your local jurisdiction.
  - The local jurisdiction will send the inspection to SCE. Once received, we will install the meter and service within 5-7 days in most areas.

## Our Commitment to You

Your SCE point of contact will:

- Reach out to discuss your project and guide you through the temporary power process and timeline.
- Review your application to ensure it is complete.
- Visit your site to inspect the temporary installation.

## DID YOU KNOW?

Customers who have been impacted by a natural disaster and need to rebuild their house and solar system may qualify for their original Net Energy Metering (NEM) rate under certain conditions.

Customers must notify SCE of their intent to rebuild within two years from the date of the major disaster. They must also complete their NEM system rebuild and submit a new NEM application within four years from the date of the disaster.

To notify us of your intent to rebuild your NEM system, please complete the Disaster Support Form at [sce.com/assistancecenter](https://sce.com/assistancecenter).

## Incentives for Rebuilding All-Electric

Visit [sce.com/disasterrecovery](https://sce.com/disasterrecovery) to learn about available incentives and rebates for building all-electric.

1. Apply for  
Temporary Electric Service

2. Rebuild and prepare for  
Permanent Electric Service

3. Apply for  
Permanent Electric Service

## 2. Rebuild and prepare for Permanent Electric Service

SCE will receive your application for permanent electric service as soon as your building plans are approved by the local jurisdiction.

### REQUIREMENTS CHECKLIST

- Complete a customer project information sheet at [sce.com/customerinfosheet](https://sce.com/customerinfosheet).
- Complete a design option letter at [sce.com/designoption](https://sce.com/designoption).
- Gather and have ready your site plan(s) — CAD File (2018 version or earlier), panel single line diagram, load calculations and grant deed.

1. Apply for  
Temporary Electric Service

2. Rebuild and prepare for  
Permanent Electric Service

3. Apply for  
Permanent Electric Service

## 3. Apply for Permanent Electric Service

Permanent electric service requires a separate application from your temporary power application. Call **1-800-250-7339** to begin.

When your service request is received, a planner will contact you to discuss the project details and timeline.

### REQUIREMENTS CHECKLIST

- Submit your request for permanent electric service at **1-800-250-7339**.
- Complete your part of the energization process requirements. Learn more at [sce.com/energizationprocess](https://sce.com/energizationprocess).
- Schedule an inspection and final approval of the electrical meter panel with your local jurisdiction.
- Provide your signed contract and pricing calculation sheets, if applicable.
- Provide payment, if applicable.
- Provide all signed easements, if applicable.

# STREAMLINE YOUR ENERGIZATION PROCESS

Submit a permanent service application as soon as your building plans are approved by the local jurisdiction. Applying early can help ensure permanent service is ready when your rebuild is complete.
